TRADEMARKS ACT 2019

[Sections 18(b), Regulation 12]

PUBLICATION OF TRADEMARK IN GAZETTE

PTG No: 10/01NRUTM/2026

In accordance with the Trademarks Act 2019, this trademark was entered on the Register of Trademarks on 25th June 2026 with a deemed registration date of 12th March 2026 at 13:19pm. The details of registration are:

Word:

ORACLE

Owner: Oracle International Corporation

500 Oracle Parkway,
Redwood City California 94065,
United States of America

In respect of the goods or services that follow.

Class 42: Non-downloadable software; software as a service (SAAS); platform as a service (PAAS); databases as a service (DBAAS); infrastructure as a service (IAAS); leasing of computer hardware for use in cloud computing and rental of computer hardware; leasing of computer hardware; computer services, namely, providing computer software, platforms, infrastructure, databases and data as a service; computer services, namely, providing cloud computing services in the field of a full line of computer software to manage, analyze, retrieve, monitor, maintain, report on, structure, model, forecast, present and display data and information from computer databases, applications and the internet, and for the development, analysis, management, integration, deployment, virtualization and maintenance of computer software and hardware; providing temporary use of on-line downloadable database software to manage, monitor, track and organize data; providing temporary use of on-line downloadable computer software applications to manage, monitor, track and organize data, namely, web services software, application server software, business intelligence software, internet and intranet portal software, computer software to automate data warehousing, content management software, telephony software, electronic mail software, electronic messaging software, scheduling software, social networking software, wireless communications software, operating system software, computer utility software, computer networking software, security and identity management software, virtualization software, cloud computing software, voice enablement

G.N.No. 1060/2026 (Cont'd)

software, and computer programs for use in developing and executing other computer programs on computers, computer networks, and global communications networks; computer services, namely, providing platforms as a service (PAAS) and infrastructure as a service (IAAS) featuring computer software and hardware platforms for creating web applications, data storage and backup, database management, virtualization, networking, collaboration, access, support, cloud computing, data sharing, data security, administration and management of computer software and hardware, and distribution and transmission of data and information; computer services, namely, providing databases as a service (DBAAS), namely, cloud hosting of computer databases for others; computer services, namely, providing data as a service through a customizable software platform for collecting, analyzing, integrating, transforming and providing access to data and information; platform as a service (PAAS) featuring computer software platforms for multi-chain, multi-cloud network management that deploys nodes and connects them to blockchains, and that enables users to manage blockchain applications; providing on-line non-downloadable computer software for enabling users to electronically create, exchange, store, send, receive, accept, and transmit digital tokens based on the blockchain technology; computer services, namely, providing on-line non-downloadable computer software for developing, building, and operating distributed applications; software as a service (SAAS) services featuring software for the encryption and authentication of the integrity of all data, digital assets, documents, and files across multiple channels using blockchain technology; platform as a service (PAAS) featuring blockchain-based computer software platforms and distributed computing software platforms for auditing and verifying digital information and codes; design, development and implementation of audit and security computer software for blockchain-based platforms; electronic data storage, namely, providing a blockchain technology-based, distributed database ledger for the storage of public, private or encrypted data, transactions and information; developing and updating of computer software for use in managing blockchain data; application service provider (ASP) featuring application programming interface (API) software for providing a platform for the development, testing, and integration of blockchain software applications; application service provider (ASP), namely, hosting computer application software for the purpose of developing, testing, and integrating blockchain applications and software; software as a service (SAAS) featuring software for developing, deploying, updating, and monitoring the performance of machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence applications; platform as a service (PAAS) featuring computer software platforms for building, hosting, and deploying chatbots and digital assistants; software as a service (SAAS) services featuring software for building, hosting, and deploying chatbots and digital assistants; application service provider (ASP) featuring application programming interface (API) software for building, hosting, and deploying chatbots and digital assistants; consulting services in the field of software as a service (SAAS), namely, providing machine learning based predictive security, threat detection, security analytics, remediation and in-context cognitive advice to users seeking to protect and secure computer systems; computer services, namely, providing computer software as a service (SAAS) to collect, manage, analyze, retrieve, monitor, maintain, report on, structure, model, forecast, present and display data and information in the fields of national defense, national security, military operations, cyber defense, cyber security, satellite imagery, public safety, public sector administration, law enforcement, public health, healthcare, clinical trials, blockchain technology, digital tokens, and non-fungible tokens (NFTs); computer services, namely, providing platforms as a service (PAAS) and infrastructure as a service (IAAS) featuring computer software and hardware platforms in the field of national defense, national security, military operations, cyber defense, cyber security, satellite imagery, public safety, public sector administration, law enforcement, public health, healthcare, clinical trials, blockchain technology, digital tokens, and non-fungible tokens (NFTs); providing online non-downloadable computer software for use in the healthcare field, including software for managing, storing, analyzing, maintaining, processing, structuring, reviewing, building, editing, distributing, communicating, organizing, sharing, referencing, monitoring and integrating healthcare information; providing online non-downloadable computer software for automating clinical, financial and administrative healthcare processes and conducting

G.N.No. 1060/2026 (Cont'd)

health related transactions via computer and communication networks; design for others of computer software for use in the healthcare field; implementation, maintenance and repair of computer software for use in the healthcare field; technical support services, including troubleshooting of healthcare software via telephone, electronic and on-site communication; providing an interactive computer interface that enables users to access and track medical information for use by physicians and practitioners in the health industry on a global computer network; platform as a service (PAAS) featuring computer software platforms for multi-chain, multi-cloud network management that deploys nodes and connects them to blockchains, and that enables users to manage blockchain applications; providing on-line non-downloadable computer software for enabling users to electronically create, exchange, store, send, receive, accept, and transmit digital assets, digital tokens, and non-fungible tokens (NFTs) based on the blockchain technology; software as a service (SAAS) services featuring software for the encryption and authentication of the integrity of all data, digital assets, digital tokens, non-fungible tokens (NFTs), documents, and files across multiple channels using blockchain technology.

TRADEMARKS ACT 2019

[Section 10; Regulation 6]

NORT No: 02/09NRUTM/2024

NOTICE OF APPLICATION FOR REGISTRATION OF TRADEMARK

The Registrar of Trademarks has received an application for registration of trademark as follows:

- (a) **Applicant's full name:** VFS GLOBAL SERVICES PLC
- (b) **Address of the applicant:** 21 Dorset Square, London -NW1 6QE, United Kingdom
- (c) **Date application lodged:** 2nd September 2024
- (d) **Time application received:** 11:42am
- (e) **Reference number for the application:** 02/09NRUTM/2024
- (f) **Representation, drawing or design of mark:**

Any Combination:

Representation of the trademark is in black and white

(g) Goods or services for which the trademark is associated with:

Class 35: business administration services namely, to provide full visa, passport and travel documents administration services to diplomatic missions in various countries, embassies, consulates, airlines, travel agents, travel managers, associations, trade and travel bodies; business administrative services for making appointments and scheduling interviews; compilation of mathematical or statistical data relating thereto; publication of publicity materials; advertising and promotional services; business information services; dissemination and updating of advertising space; computer data processing; business advisory and consultancy services relating to visa administration; business information services relating to enquiries on visa administration through commercial information agencies; operation of telephone call centres for others; online data processing services for visa application; business administration services for the compilation of information on the status of visa applications and information on the issuance of visas; commercial information services provided by access to computer database including online information services on the status of visa applications and the issuance of visas through extensive interface with global software of diplomatic missions; provisions of business information services relating to enquiries on visa administration; commercial information

G.N.No. 1061/2026 (Cont'd)

agencies relating to the provisions of information and announcements on visa administration; collection of data for visa applicants especially by means of online database for the storage, retrieval and updating of various applicants profiles and information; statistical information of visa applicants' profiles provided in the form of customized reports, based on the data stored in the aforesaid database; document reproduction; public relations;

Class 39: travel arrangement services; arranging for travel visas, passports and travel documents for persons travelling abroad; providing travel information through an on-line computer database; travel and transport reservations; transport of travellers; escorting of travellers; travel guide services; arranging of travel tours and sightseeing; transportation information; road, rail, water and air transport (passengers and goods) services; travel, excursion and cruise arrangement; message delivery services; delivery of goods; courier services (messages or merchandise);

Class 42: design, development, installation and maintenance of customized software and computer technology software solutions for the purpose of complete visa, passport and travel document administration; design and development of customised hardware solutions for the purpose of complete visa, passport and travel document administration; computer services, namely, acting as an application service provider in the field of information management to host computer application software for the purpose of visa, passport and travel document administration; providing temporary use of non-downloadable computer software for tracking documents over computer networks, intranets and the internet; application service provider (asp) services, namely providing access through a dedicated website to software that enables the user to get the visa and passport information, visa and passport application, appointment and interview scheduling, online payment collection, biometrics enrolment, biometric data capture and transfer, verification, legalisation, attestation and translation, and for the tracking of the visa application status and visa documents; technical support services, namely, remote administration and management of in-house and hosted datacentre devices, databases and software applications; research and development of new products, technology and methods of operations in the field of visa and passport administration;

A person may lodge a notice of opposition to the Registrar within 21 days of gazettal of this Notice.
